TIME TRACKING
EMPLOYEE CLOCK IN & CLOCK OUT

Employee Scheduling

There is a lot of effort that goes behind managing the daily operations of a convenience store or a Chain of retail stores. It can be quite daunting for the manager to keep a check on their individual clock in/out timings, overtimes, and daily schedules. MRB saves you the effort and time that goes into daily operations.

Save $1000/month in payroll costs only.

Our Speciality

MRB software provides a retail back office platform for employee's time sheet management. This makes it easier for you to build schedule and share with employees.

- ☑ Reduce payroll cost with scheduling.
- ☑ Control early check Ins and late clock outs.
- ☑ Easier for accountant to run payroll.
- ☑ Saves > 2 hours per week of management time.

GEO LOCATION ATTENDANCE
Manages Employee in and out timings based on GEO location.

ADMIN UPDATES
Only Admin-approved users can view or update data when required.

TIMING NOTIFICATIONS
Employees get alert for start of the shift and for any change in shift.

MANAGED DATA STORAGE
Cloud storage to allow admin access to data from anywhere, anytime.
